PROFILE

I am self-starting, courteous and enthusiastic. I am interested in IT and everything in its orbit. I am fascinated by web programming e.g. developing, designing and building websites. I have continuously challenged myself and consistently improve my designs and implementation of the interface and also building reusable codes

I am driven to gain more experience in the field. For this reason, I am looking for company willing to offer me a placement among their developers. In return, I would offer my full commitment and be a pleasant, friendly and worthy addition to your team. I am therefore currently looking for a job or an internship as a front end developer.

SKILL HIGHLIGHTS

- HTML
